

JusTechRun Systems Inc — Investor Deck

AI-Powered Financial Infrastructure • CRM Automation • Tokenized Finance Systems

Delaware C-Corp • Founder: Jus Mason

Problem

Modern fintech operators, ministries, and multi-entity organizations struggle with fragmented systems, manual compliance processes, and weak automation.

Legacy tools do not support SPV structures, tokenization workflows, or multi-cloud regulatory-grade architecture.

Solution

JusTechRun delivers an AI-driven CRM and compliance automation engine built for regulated entities.

Our platform unifies workflows across finance, operations, risk, tokenization, and ministry ecosystems.

Product Overview

AI automation engine for CRM, GRC, and workflow management.

Multi-cloud architecture across AWS, Azure, and GCP.

Tokenized-asset module pipeline for future programmable finance.

Compliance-grade audit trails and SPV/Trust-ready structure.

Market Opportunity

\$300B+ global fintech infrastructure market.

Rapid growth in AI automation, digital compliance, and tokenized assets.

Demand increasing from ministries, nonprofits, SPVs, private equity, and multi-entity operators.

Business Model

SaaS enterprise licensing.

Per-entity fee for SPV/GRC automation.

Tokenization and digital-asset infrastructure fees.

Professional services for onboarding and enterprise customization.

Technology & Architecture

Agentic AI workflows using multi-model orchestration.

C#, Python, and cloud-native microservices.

LangChain, ML pipelines, secure data layers.

Azure • AWS • GCP deployed with CI/CD via GitHub Actions.

Go-To-Market Strategy

Initial onboarding through ministry networks, holding companies, and fintech operators.

Partnerships with cloud credit programs for low-cost scaling.

Target early adopters who need compliance automation and multi-entity frameworks.

Traction & Milestones

MVP in development.

Partnership access: AWS, Google Cloud, Microsoft Founders Hub, NVIDIA Inception (pending).

Brand identity, CRM schema, AI workflow architecture completed.

Financial Ask

Raising \$750,000 for 18-month runway:

- Engineering (AI + backend): 45%
- Cloud compute + infrastructure: 20%
- Product refinement + beta launches: 20%
- Compliance, security, operations: 10%
- Marketing + GTM: 5%

Why We Will Win

Unique founder expertise at the intersection of finance, compliance, and AI.

Deep knowledge of SPVs, trusts, tokenization, and regulated workflows.

Ability to design, build, and operate multi-cloud AI infrastructure in-house.

Closing

JusTechRun Systems Inc is building the institutional operating system for the next generation of compliant digital finance.
